

## Description

The Whistle collection is, quite literally, a living reference to the work of glassmakers, as inspiration for the design was taken from the blowpipe, which in Czech is known as a glassmaker's whistle. The lucid body of the piece traces the silhouette of a cone of light, and a distinct spotlight with hand-pressed metal shield constitutes its imaginary heart.

**Tech. description** The light consists of a glass body with Brokis connector and lead cable with connector. The bottom section comprises a metal reflector with GX53 light source socket. The light includes a metal ceiling canopy.
